# Crippled by Rheumatism.

Those who have Rheumatism find themselves growing sceadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad conductor, of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for that painful disease. He says: 'I was a great sufferer from muscular Rheumatism for two years. I could get no per manent relief from any medicine preno permanent relief from any medleine pre-scribed by my physician. I took about a dozen bot-tles of your S. S. S. and now I am as well as I ever was immy life. I am sure that your medicine cured me, and I would recommendit to any one suffering from any blood disease.

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

This movement on the part of the Demo-rate of Warren county grows out of the scion of the Democratic legislative con-cention, which that in Berryville August and nominated Arthur L. A committee from Warren county walted upon the convention and protested against the holding of same, saying that it was fliegal, as the Jackson election law provides that the convention and primaries electing delegates thereto shall be held not more than talety days nor eas han twenty days before day of election. This protest, which was signed by over four hundred Democratic voters, to ded together with other reasons why the convention should be annulled that the people of Warren county favored Governor Tyler as the successor of Thomas S.
